

# the HARLEQUIN

*Sam Riviere*  
**spooky sunsets**

I took these pictures with a 30 sec. exposure  
and a high ISO setting of 1500  
to enhance the look of dark days,  
an ominous, solid mantle of clouds  
with just a sliver of bright sky streaking through.

Are you brave enough for our very final finale?  
I have a cat, I have a band or two.  
We've got cocktails for grown-ups.

I used to review every movie I watched.
